

# AUTOMATION AND DIGITIZATION

in Local Civil Engineering and Road Construction

End-to-end digital

Schwabenpower

## 3D MACHINE CONTROL SYSTEM

MTS-Navi for excavators and crawler

## 3D COMPACTION LOG (CCC)

Control and logging of the compaction quality

## ICANNECT

Interference-free and inductive power and data transfer

## SOLUTIONS

for enhanced efficiency, productivity and reduced workload

Brochures in English

www.MTS-online.de

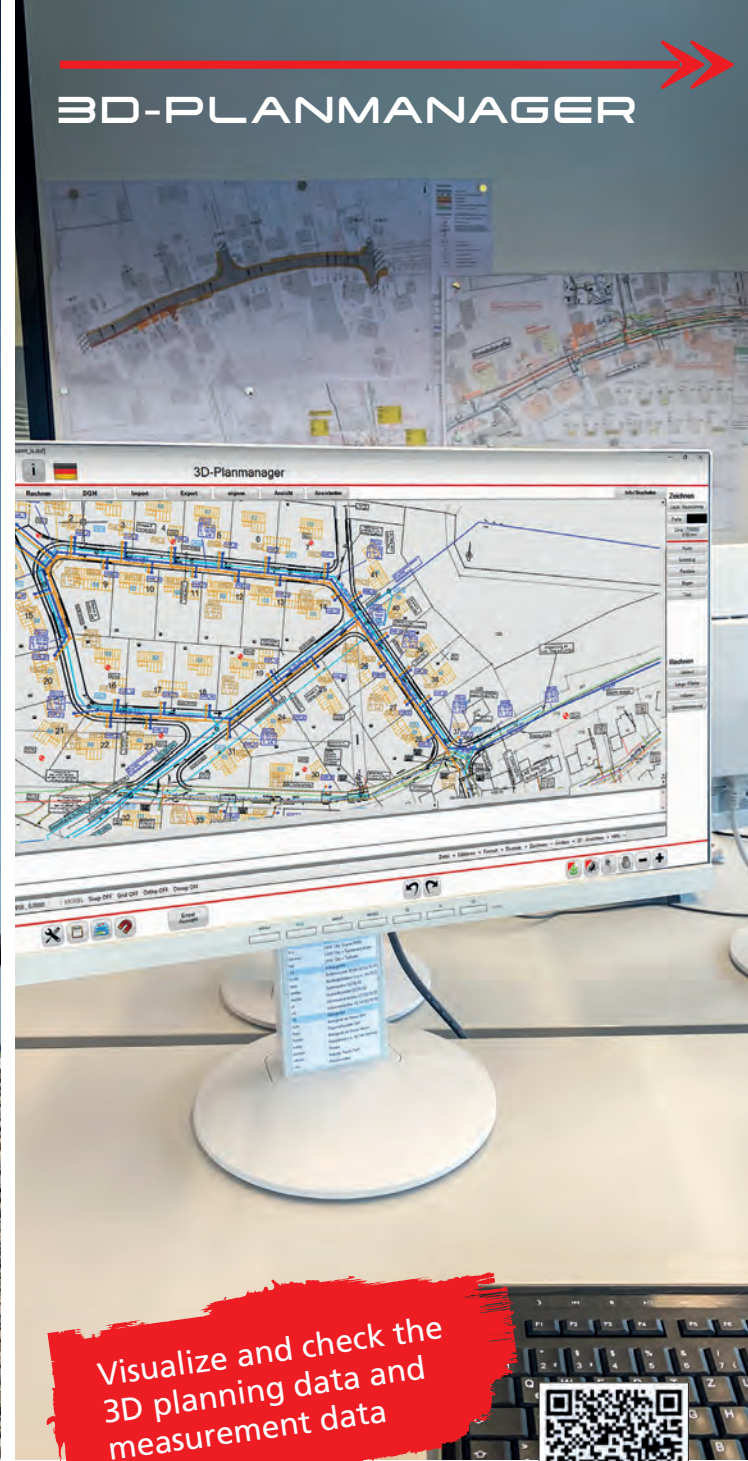

# MTS-ROVER

Supports all surveying and control tasks

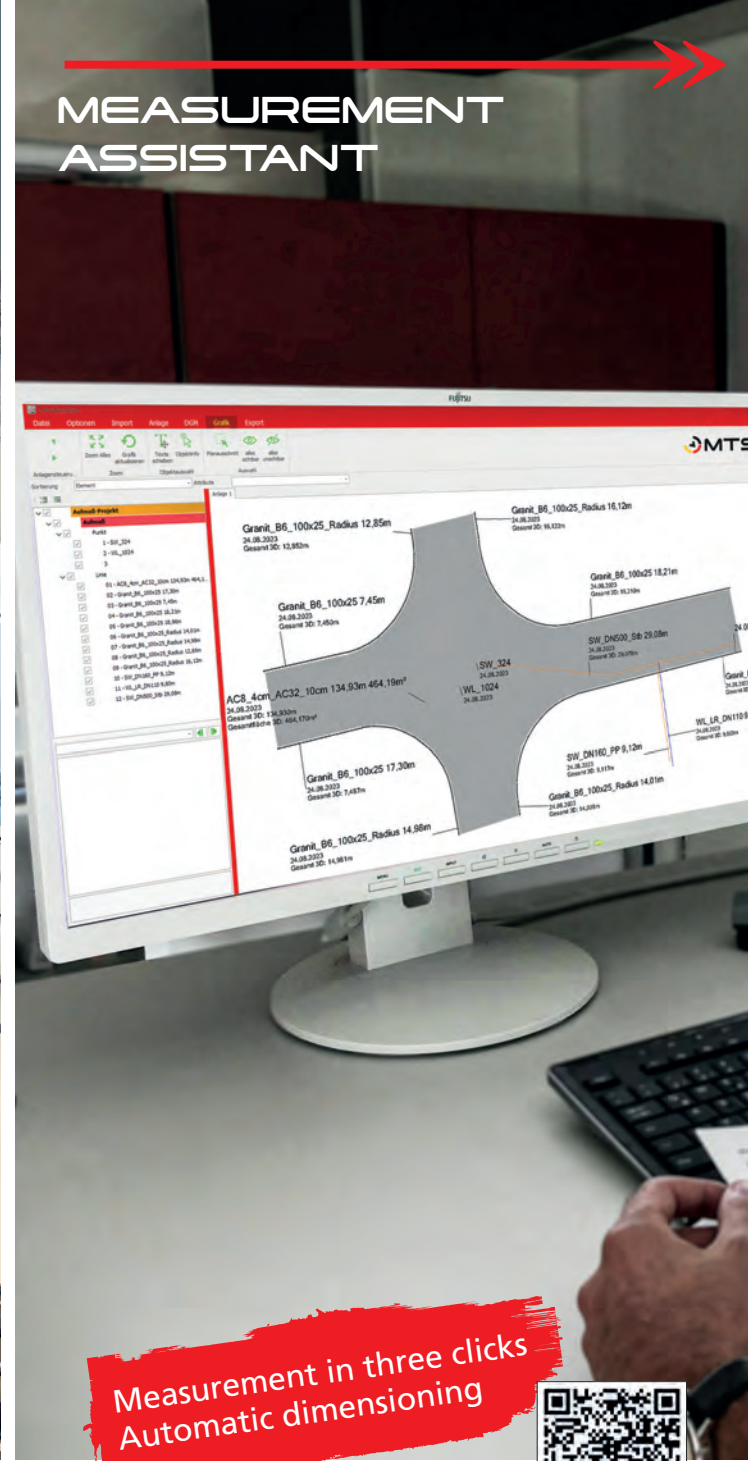

# 3D-PLANMANAGER

Visualize and check the 3D planning data and measurement data

# MEASUREMENT ASSISTANT

Measurement in three clicks Automatic dimensioning

# MTS-SMART

Keep your construction site in order with device management and scheduling

# MTS ACADEMY

We help you get ready for the future: practice-orientated transfer of sound know-how for civil engineering and road construction [www.MTS-Akademie.de](http://www.MTS-Akademie.de)
